Connecting young people virtually because Scouting never stops! 3–5 April 2020
Scouting never stops.

Many Scout activities have been cancelled. School’s out. We miss our friends. Our community needs our help. But Scouting never stops.

This special edition of our largest digital jamboree will allow you to connect to others, learn new skills, bring Scouting online, and build new friendships during this challenging time. We’ll foster teamwork and intercultural interaction while
enhancing safe social engagement and wellbeing.

What is JOTI Special Edition?

This is a one-of-a-kind special edition of JOTI. Both educational and fun, this JOTI will bring Scouting to the homes of young people around the world during a challenging time. You can learn about safety measures, mental and physical
health and digitally engage as global citizens through a range of different activities. The best part is, you'll make new friends from around the world!

JOTI Programme of Online Activities
How to get involved?

All you need is a good internet connection, a computer or smartphone, and a smile on your face! Let’s just make sure we’re taking part in JOTI from the comfort of our own homes and not from public places or crowded spaces. To make the most of your JOTI experience, we’d also suggest a microphone and webcam, and maybe a digital camera to take and share photos.
